- Our capsule coffees compatible with Nespresso brand machines, which we produce using 80% recycled aluminum, bring flavor to practicality with freshly roasted quality beans.
- With our many product varieties such as practical filter coffees, natural cocoa powder, fruit purees and 10 flavored powdered drinks, we have gained the appreciation of both the horeca channel and our end consumers.

PERFECT ROASTING UNIQUE TASTE

As Nish Kahve, our understanding of service is to offer excellent and unique tasting fresh coffee to the consumer, both as a producer and as a supplier. What distinguishes Nish Kahve from other coffees is that it creates a unique taste of coffee by selecting its green beans from the country and region's specialty farms that offer high quality products which are rated above the industry average in SCA ratings.

Coffee beans with this feature are always roasted with the same recipe in smaller roasting machines instead of industrial roasting methods. The purpose of this application is to preserve the freshness of the coffee and to achieve the same taste in each roasting. Carefully selected and roasted "Nish Coffee" beans are packaged with valves, in accordance with BRC standards, to preserve the freshness of the product inside for a long time, so that they can reach you with the same flavour. All products are presented with special labels indicating the country region, altitude and tasting notes of the beans.

MÜKEMMEL TAD EŞSİZ KAVURMA

Nish Kahve olarak hizmet anlayışımız, mükemmel ve eşsiz tatta taze kahveyi hem üretici hem de tedarikçi olarak tüketiciye sunmaktır. Nish Kahve'yi diğer kahvelerden ayıran özelliklerinin başında ülkenin ve bölgenin yüksek kalitede ürün veren özel çiftliklerinden, SCA değerlendirme notlarında sektör ortalama sınırının üzerinde olan yeşil çekirdeklerini seçerek benzersiz kahve tadını oluşturması gelmektedir. Bu özellikteki çekirdekler endüstriyel kavurma yöntemleri yerine daha küçük kavurma makinelerinde her zaman aynı reçete ile kavrulur.

Bu uygulamanın amacı kahvenin hem tazeliğini korumak hem de her kavurmada aynı lezzeti ön plana çıkarmaktır. Özenle seçilerek kavrulan Nish Kahve çekirdekleri, sizlere aynı lezzette ulaşabilmeleri için her biri valfli, BRC standartlarına uygun, içerideki ürünün daha uzun süre tazeliğini koruyabileceği şekilde ambalajlanır. Tüm ürünler, kullanılan çekirdeğin ülke, bölge, yükseklik ve tadım notları ile hazırlanan özel etiketleri ile sizlere sunulmaktadır.

TURKISH COFFEE / *TÜRK KAHVESİ*

Our coffee beans are carefully roasted by our experienced and skilful roasters. Thanks to our original recipes and roasters, we offer you our coffee as a unique taste every time. Our Nish Turkish Coffees consist of a blend of Brazilian beans and highly qualified African coffee as a result of our months-long product development endeavours. The blend we have used in Nish Turkish Coffee has gained great popularity in blind tastings.

Kahve çekirdeklerimiz işinde tecrübeli, usta kavurucularımız tarafından özenle kavrulmaktadır. Özgün reçetelerimiz ve kavurucularımız sayesinde her seferinde kahvelerimizi eşsiz bir tat olarak sizlere sunuyoruz. Nish Türk Kahvelerimiz ise aylar süren ürün geliştirme çalışmalarımızın sonucunda Brezilya çekirdekleri ile yüksek nitelikli Afrika kahvelerinin harmanından oluşmaktadır. Nish Türk Kahvesinde kullanmış olduğumuz blend, kör tadımlarda çok büyük beğeni elde etmiştir.
